C,C++, MySQL,Next.js,MongoDB ●●●●●

OTHER SKILLS

JAVA,DBMS,CN,OS ●●●●●

WORKSHOPS

Web Development organised by our college

2019

Machine Learning Workshop organised by our college

2019

PROJECTS

Online Coffee Shop

- Online Coffee Shop for coffee lovers with variety of offers.
- In this project mainly focused on the interface of the website and we have used HTML,CSS,PHP.
- Website :<https://amaycoffee.netlify.app/>

NFT MarketPlace

- Dapp of NFT market place was built using Next.js,tailwind css,sanity.io and instead of solidity we have used online tool which is Web3 SDK which works on web3 applications and through this the functionality of nft marketplace has been designed.
- Website : <https://nftmarketplace-phi.vercel.app/>

Online Chat Application

- A simple React.js that any login user can chat with any other user.
- In here we have used Sokcet.io api for connection and it works as TCP connection.
- For backend server we have used MongoDB.
